In the event a renewal of this authority is deemed warranted, submit your request with full justification (Manual of Investigative Operations, Part II, Section 1.0, Page 1062) at least seven days prior to the expiration of the existing authority.

In addition, you should insure that all persons identified as having been monitored, are suitably included in the field office and FBIHQ ELSUR indices, commensurate with existing instructions as outlined in Bureau airtels to all offices dated 4/12/77, 6/8/77, and 10/21/77, entitled, "Microphone and Telephone Surveillances." Forwarded under separate cover are three copies of five computer lists produced from telephone toll records furnished by your Office. The "To Number" list shows all toll calls made to a specific telephone number in date and time sequence. The "Billing Number" list schedules all toll calls billed to a specific telephone number in date and time order. The "From Number" list sequences the calls by the number the call was made from. The "Date" list sequences the calls by date and time of call. The Computerized Telephone Number File (CTNF) hit list sets out telephone calls made to a number where the subscriber has been identified. Also forwarded are the telephone toll records submitted by your Office which were used to produce the aforementioned list.

As subjects and suspects are identified in this matter you should consider entering their names, addresses and telephone numbers into CTNF. When additional toll records are submitted for processing, calls made to these individuals will then automatically be identified on the hit list. The hit list is not to be disseminated outside the Bureau.

Immediately advise Bureau when order is obtained and electronic surveillances are in operation. Also advise code designation of electronic surveillance, when and if an extension order is obtained, and date of discontinuance of surveillances. In addition, a succinct summary of pertinent information received from electronic surveillances should be reported to Bureau every five days until coverage terminated.

It will be necessary to prepare a verbatim transcript of only those communications which in judgment of supervising attorney will be utilized in court in connection with this investigation. Transcripts must be prepared promptly in order that appropriate prosecutive action can be conducted which will coincide with termination of electronic surveillance coverage.

In line with existing Bureau instructions, (MIOG, Part II, Section 10-9), promptly forward to Bureau each Friday, blue index cards for our elsur indices so as to insure we have up-to-date records of all persons reasonably identified as having been monitored. Insure proprietary interest index cards are forwarded promptly to FBIHQ.

As set forth in the original affidavit, which is included herewith, this investigation involved a concerted effort by the Chicago family of the La Cosa Nostra, in concert with the Los Angeles LCN family, to control criminal activities such as bookmaking and loansharking, in Southern California. The Los Angeles, San Diego, and Chicago FBI Divisions view the criminal activities specified in the initial affidavit as a crossroads move by the La Cosa Nostra to dramatically increase their influence in the Western states.

The contents of the enclosed affidavits and applications have been discussed and reviewed by Special Attorney [redacted] Chief, Los Angeles Strike Force, who is assisting in this matter and will be, for Title III purposes, Supervising Attorney.
